## SOME MILESTONES FROM THE PAST 50 YEARS

2022	No more kids in school, phew!
2020	Here, in the countryside, everyone does volunteer work, including me now as a city councillor, and I feel honoured
2018	Off to Leutershausen, from the big city to the village. A culture shock, in a good sense
2005	Working full-time as a mother of school children – quite a challenge in Bavaria
2002	Completed my MBA at the same time as my second child was born, I'm a bit proud of both
2001	September 11 in Mallorca, the husband comes back from jogging: from now on the world is no longer as it was
1999	I'm no longer just responsible for myself. How wonderful!
1992	Off to Osaka after graduation, because life is good in Japan, good friends can also be found here
1986	Off to Tokyo. Europe is very far away, and Germany is very small on the world map
1984	Off to Munich, life is only good in the big city – so I thought
1983	School is out, too bad, I liked meeting my friends every day
1968	Kindergarten is a pain, I can't do what I want, when I want
